

## **AVAILON INC. TO JOIN AT THE RENEWABLE TECHNOLOGIES SUMMIT 2011, HOSTED BY MARCUS EVANS**

August 05, 2011

**marcus evans Summits** is pleased to announce **Availon Inc.**, proud Sponsor at the annual **Renewable Technologies Summit**, August 15-16, 2011 at the prestigious Westin Diplomat Resort & Spa, Hollywood, FL.

Availon Inc. is part of the SSB Group family, which has been in wind-related industries for more than 30 years. Availon Inc. has more than 170 employees worldwide, with business units in the USA, Germany, Spain and Italy. They specialize in parts and services for GE, Vestas®, and Siemens® turbines, and are expanding to other turbine types. In addition to being a primary supplier for SSB and Duradrive parts, Availon Inc. is also an exclusive vendor for Bachmann, Lenord + Bauer, and Convertec parts. The Availon global portfolio includes spare parts supply and management, end of warranty inspections, individual turbine optimization, turbine upgrades, field services, remote monitoring, and operations and maintenance.

Availon takes a high tech approach to wind turbines. They don't want to just ensure they continue to run. They want to ensure they run as efficiently as possible, to increase the turbine's lifespan. They have a skilled team of engineers in Iowa, as well as in Germany, who have over 60 years of engineering experience on the GE 1.5 and a similar depth of engineering knowledge on Vestas, who work together to design upgrades for customers that solve reoccurring fault problems and inefficiencies. This is a unique approach for service providers. They will continue to add other turbine types to their engineering knowledgebase as they expand.

The Renewable Technologies Summit offers a unique format for solution providers to gain access to the leading power generation executives across North America. Over two days, solution providers will meet and interact with senior power generation executives through a number of one-on-one business meetings and many organized networking activities. marcus evans Summits ([www.marcusevans.com](http://www.marcusevans.com)), produces high-level business platforms for the world's leading decision-makers. These dynamic and innovative forums initiate and develop business relationships one-on-one between director and C-level practitioners from the world's most influential organizations and with leading product and service suppliers. marcus evans Summits guarantees an exclusive format which enables participants to achieve the maximum amount of business and knowledge interaction over a two day event in a stimulating environment.

Please note that the Renewable Technologies Summit is a closed business event.
